Ar the Magistracy this morning Mr H. Wodeheuse held an inquest upon the body of a young man found in the Harbour the morning of the 14th inst. by Constable Buyers, 150 yards east of the Government Wharf. William Stewart, gunner, Royal Artillery, stated that about 10.15 p.m. the deceased John Croxton, gomer, B.A., along with several comrades, went to bathe off the North Barracks near the bathbouse of the V.R.C. He saw deceased standing in the water. The water was only up to his kness. He took a step forward and suddonly disappeared. His comrades dived but could not find deceased. Bathing is not allowed at this place, but witness was of opinion that they were not breaking out 816 the Barracks by bathing there. John Foley, gunner, B.A., said deceased was not altogether sober, but was able to take care of himself. THERE is every indication of a big boom in reservoir of the Taikoo Sugar Refinery gold mining in Causda this year. The recent rich discoveries of the precious motal in the Rainy Lake region are exciting the sheds were used for housing unwards of people of Minnesota, Northwestern Ontario and Manitoba, and the introduction of hydraulic machinery in Cariboo, in northern British Columbia, promises to revulotionise gold mining in the Pacific Province. The Rainy Lake country, however, owing to its closer proximity, is attracting the greater attention at present, and when foring pectors and miners, the great movement towards the mines will not take place until the opening of navigation, owing to their inaccessibility during the Winter. The route has hitherto been by Duluth and Tower City in Minnesota and thence by stage, a tedious and difficult journey cocupying four for five days. When pavigation opens on the Lake of the Woods, there will be direct commu nication from Kat Portage, on the main line of the Canadian Pacific by steam. er. When the los breaks up in that Lake no difficulty whatever will be experienced in reaching this new Eldorado. The reports received show that almost fabulous wealth is in night and that already a large number of claims have been taken up. Several embryotic cities have salvesdy sprung into existence, a newspaper plant and a stamp mill have been imported, and early Spring will see the Relay Lake country very lively There appears to be any amount of capital invested and as the region is salmirably adapted for piacer mining, an army of miners is well as a bank of money will doubtless pour in very abortly, -- Montreal Herald.

> SHOOTING MATCH. SEEGRARIS MINE W. PIELD BATTEET,

A few weeks sgo, it will be remembered. the Field Restery challenged the R. A. Bergeants' blees to a shooting contest. The result was a win for the Volunteers by 90 points. It was considered that this was by no means a satisfactory match, as the Volunteers had five months practice and the Royal Artillery Mess practically none. Undannied, however, the Bergaanta were determined to wipe not the defeat. They formed a shooting club and have had some excellent practice; so a fetter challenge to the Volunteers was the natural outcome. This maich took place on Saturday last. It was intended having the mately on the Boad West. The Fire Brigade, under Mr | military range, but through some official H. E. TIGERS SHOT AT KOWLOON.

The etements that tigers had been seen in Hongkong and on the Kowloon Peninsula have often furnished matter for sarcastic remarks on the part of the sceptical, but the fact that two spleudid specimens of the Chinese tiger have been shot just outside the boundary at Rowloon confirms all the elerning stories of veracious eye-witnesses. All doubts as to the proximity of tigers to the Colony have now been set at rest. For several days last week the inhabitants of the little village of Chung San Wan, near lighted to read that the Hen. T. H. Whit Chinese Samshuipo, had been losing live stook. The depredations were set down, as usual, to tigers, and when a pig meighing eighty cattles was carried away on Friday of somewhat similar phraseology on Saturnight, the villagers came to the consinsion that an attempt should be made to prevent is reported to have said; We have an army the occurrence of such depredations in fu- of officials sufficiently numerous to govern ture.
